PROFESSIONAL SUMMARY

IT Asset Management and Process Automation professional with 11+ years across ITAM operations, CMDB validation, asset lifecycle governance, procurement support, and enterprise reporting. Currently Team Lead - Analyst II at DXC Technology, leading eight specialists and personally owning asset & configuration governance for six enterprise client accounts. Automated eight ITAM report categories, cutting a recurring reporting cycle from four hours to ten minutes and removing roughly 48 hours of manual work per year. Builds production solutions in Python, Microsoft Power Platform, SharePoint and Excel, with AI-assisted development applied to diagnostics and validation tooling.

CORE COMPETENCIES

IT Asset Management	CMDB & Data Governance	Power Platform Solutions	Python Automation
AI-Assisted Workflow Design	Data Analytics & Dashboards	Audit & SOP Compliance	Team & Stakeholder Leadership

KEY ACHIEVEMENTS

- Automated eight ITAM report categories and reduced a recurring reporting cycle from approximately four hours to ten minutes, now used by three teams and 11 active users.
- Led an eight-member Product Registry and Governance team covering work allocation, quality, knowledge transfer, and daily operations.
- Delivered a multi-region asset tracking solution covering 146 sites using Power Apps, Power BI, and automated stakeholder communications.
- Developed the Asset Forecast Form within one week and received the 2026 Grow DXC Award for ownership, responsiveness, quality, and customer focus.
- Received six verified DXC recognitions between 2021 and 2026 for collaboration, delivery excellence, compliance, security awareness, and solution delivery.

PROFESSIONAL EXPERIENCE

Team Lead - Analyst II | DXC Technology, Chennai (Remote) Jan 2021 - Present

- Lead eight specialists within Product Registry and Governance operations, managing work allocation, priorities, process adherence, knowledge sharing, and service delivery.
- Maintained zero escalations and 100% SLA compliance across owned enterprise accounts in the 2025 performance review.
- Manage CMDB validation, asset lifecycle controls, inventory reconciliation, data quality, audit readiness, SOP compliance, KPI reporting, and stakeholder communication.
- Design Python and Power Platform solutions using Power Apps, Power Automate, Power BI, SharePoint Online, Excel Online, Streamlit, Flask, pandas, openpyxl, and SQLite.
- Define business logic, validation rules, exception handling, approval workflows, output structures, and governance controls for automation initiatives.
- Collaborate with DXC and client stakeholders to gather requirements, review outputs, support deployment planning, and deliver process improvements.

Senior Assistant Technician II - Network Procurement | DXC Technology, Chennai Sep 2017 - Dec 2020

- Supported IT Infrastructure Operations, global network procurement, contract management, mobility operations, and enterprise service delivery.
- Performed bulk CMDB reconciliation and data validation in ServiceNow; supported reporting, request tracking, documentation, and issue resolution.
- Owned ServiceNow CMDB+ validation and SharePoint governance documentation for enterprise portfolios.
- Promoted onto the leadership track on the strength of governance ownership and delivery consistency.

Process Associate - IT Service Delivery | Hewlett Packard Enterprise, Chennai Sep 2015 - Sep 2017

- Processed 100+ monthly IT orders, mobility requests, and purchase-order approvals using HPSM and Citrix.
- Validated and reconciled 1,000+ asset records using HP Asset Manager, resolving discrepancies and maintaining process compliance.
- Promoted on the strength of throughput and independent handling of high-volume requests.

Manager - Purchase and Stores | Sony Service Center, Chennai Feb 2015 - Sep 2015

- Managed stock receipt, dispatch, returns, inventory control, procurement coordination, and engineer-to-parts allocation.

KEY PROJECTS

MIRA AI - Self-Healing Diagnostics Platform | *Solution Designer* | Jan 2026 - Present

- Designed architecture, workflow structure, classification logic, risk controls, decision rules, and standardized outputs for AI-assisted diagnostics.
- Developed Known Issue Library and RAG concepts supporting low-risk remediation, guided recommendations, and high-risk escalation.

Enterprise ITAM Reporting Automation | *Automation Solution Developer*

- Automated billing, server, CMDB, software-license, Oracle diagnostics, RDS CAL, ILMT, and compliance outputs using a Python-based reporting pipeline.
- Integrated multiple source feeds, validation checks, repeatable processing logic, standardized Excel outputs, and audit-aligned controls.

WFR Asset Recovery Dashboard - Philips | *Solution Developer*

- Designed a Python, HTML, and SQLite dashboard with snapshot comparison to identify asset additions, closures, and recovery-status changes.
- Tracked 11,000+ asset records across 62 countries through 120 daily snapshot loads, with country, region, lifecycle-state and overdue analytics; collaborated with DXC and Philips stakeholders on reporting and Azure data-store planning.

Philips Asset Forecast Request Tool | *Power Platform Developer*

- Developed a Power Apps Canvas application with SharePoint Online and Excel Online backend architecture.
- Implemented Power Automate email notifications, request routing, business justification, approval workflows, and cross-tenant deployment and migration runbooks.

DXC MVT 1.x - Model Validator AI Tool | *Business Logic & Validation Designer* | Jun 2025 - Aug 2025

- Defined SOP-aligned normalization and validation rules for enterprise hardware and software inventory data, discrepancy identification, and standardized outputs.

Multi-Region Asset Tracking & Analytics | *Power Platform Developer*

- Developed a Power Apps and Power BI tracking solution for monthly reporting across 146 sites, with automated stakeholder communications and no manual consolidation.

TECHNICAL SKILLS

ITAM & Governance	IT Asset Management, Asset Lifecycle, CMDB Validation, Inventory Reconciliation, Data Quality, Audit Readiness, SOP Compliance
Power Platform	Power Apps Canvas Apps, Power Automate, Power BI, SharePoint Online, Excel Online, Planner, Teams, Outlook
Python & Automation	Python, pandas, openpyxl, Streamlit, Flask, SQLite, Excel Report Generation, Snapshot Comparison, Workflow Automation
Analytics & Reporting	Data Analytics, HTML Dashboards, Advanced Excel, Power Query, Excel VBA, KPI Reporting, Trend Analysis
AI-Assisted Design	MIRA AI, Prompt Engineering, RAG Concepts, Known Issue Library, Risk-Aware Decision Logic, SOP Instruction Frameworks
Enterprise Platforms	ServiceNow, HP Asset Manager, HPSM, Citrix, Microsoft 365

CERTIFICATIONS & PROFESSIONAL LEARNING

ITIL 4 Fundamentals | AWS Certified Cloud Practitioner | Full Stack Development - NoviTech | DXC AI Governance & Prompt Engineering | Generative AI Learning | Power BI Bootcamp | Machine Learning Bootcamp

SELECTED RECOGNITION - 6 AWARDS

Great Team Always - 2021: Collaboration and teamwork.	Eye for the Phish - 2021: Security awareness and phishing reporting.
Thank You for Making a Difference - 2023: Delivery excellence, professionalism, and customer focus.	Annual Training Completion - 2024: Information Security and Code of Conduct completion.
Eye for the Phish - 2025: Six consecutive simulated phishing tests reported.	Grow DXC Award - 2026: One-week Asset Forecast Form delivery, ownership, quality, and responsiveness.
